CRITERIA FOR SELECTION

PART I: Numerical ratings. Please rate each component of the research on the following scale:

| 1 (Poor) | 2 | 3 | 4 | 5 | 6 | 7 (Outstanding) |

_____ 1. Significance of the questions asked. The issues investigated are important and relevant to
the teaching and/or learning of foreign languages in a classroom context

_____ 2. Potential impact of findings on learning and/or teaching languages other than first
languages beyond the local context of the research.

_____ 3. Clarity and appropriateness of research techniques and procedures.

_____ 4. Potential for the study to serve as a model for future research for the purpose of replicability.

_____ 5. Potential for the study to point to new ways to conduct research or to new research questions
to explore.

_____ 6. Clearly presented discussion of pedagogically relevant findings and limitations of study.

_____ 7. Overall clarity/readability of study, including tables, figures and appendices.

_____ TOTAL POINTS (49 maximum)

PART II: Commentary. Does this article merit the Pimsleur Award? Please explain, considering
relevance and applicability of the research.
